

Cognac & Pineau - 1.

Besides wine, this part of France is also known for two other specialities: pineau & cognac. Pineau (white, rosé or red) is really a speciality of this region and taste somewhat like a glass of port. In France it is often consumed as an apéritif or drink during the meal. Cognac (VS, VSOP, XO) is produced in the west of the Charente department, according to ancient traditions. Southwest France has therefore many family businesses, where generation after generation continues the family business.

SCEA de La Menècle

At approximately 5 minutes drive from Aubeterre, in the village of Rouffiac, you will find such a family company, named "SCEA La Menècle". A traditional producer of cognac & pineau, it offers excursions, tasting and the direct purchase of pineau and cognac.
